Kasarian ng Pangngalan

Ang mga pangngalan sa Filipino ay maaaring ipangkat batay sa kasarian ng mga ito. May apat na kasarian ang mga pangngalan: *panlalaki*, *pambabae*, *di-tiyak ang kasarian*, at *walang kasarian*.

Ang **pangngalang panlalaki** ay pangngalan na ginagamit o tumutukoy sa mga lalaking tao o hayop, tulad ng *ama*, *tito*, *lolo*, *binata*, at *padre*. Ang **pangngalang pambabae** ay pangngalan na ginagamit o tumutukoy sa mga babaeng tao o hayop, tulad ng *ina*, *ate*, *madre*, *prinsesa*, *libay* (babaeng usá), at *tindera*.

Ang pangngalan na maaaring gamitin sa lalaki o babaeng tao o hayop ay may kasarian na **di-tiyak**. Mga halimbawa ng pangngalang di-tiyak ang kasarian ay *magulang*, *guro*, *pangulo*, *gabay*, *baboy*, at *pinsan*.

Ang mga pangngalan na tumutukoy sa bagay na hindi lalaki o babae ay tinuturing **walang kasarian**, tulad ng *upuan*, *aklat*, *ospital*, *laruan*, at *walis*. Ang mga pangngalan na tumutukoy sa pook o bagay na walang buhay ay walang kasarian, subalit ang mga halaman (puno, bulaklak, at iba pa) ay tinuturing kasama sa mga pangngalan na walang kasarian. Ang mga pangngalan na di-konkreto tulad ng *pag-ibig*, *kapayapaan*, *takot*, at *pasensiya* ay wala ring kasarian.

May ibang pangngalang panlalaki na may katumbas na pangngalang pambabae. Ang mga halimbawa nito ay nakalista sa talahanayan sa ibaba. Ilan sa mga ito ay mga salitang hiram mula sa Espanyol.
